- VaserLipo
- Accent
- Body Refining Gel

UNWANTED HAIR

Unwanted hair can appear all over the body but most commonly it is found around the bikini area, face, underarms and legs. Laser Hair removal is a great pain free treatment!

- Restylane or Juvederm Ultra
- Fractional CO2 laser resurfacing
- Sculptra - collagen stimulator

DROOPY EYES

They say that the eyes are the window to the soul - well we're not sure about that but we do know that if your eyes look bright and clear, you look younger, happier and more carefree than when they're downturned, droopy and wrinkled!

Consider:

- The Madonna Laser Eyelift
- Dermal fillers
- Priori AAHA Eye Serum
- Idebenone Eye Serum

LINES AROUND THE LIPS

LOVE HANDLES

Many women suffer with excess weight around their hips which is commonly known as love handles. Love handles can be removed using Vaser Lipo. Vaser Lipo can also be used to treat muffin tops, saddle bags and bingo wings. You can also consider Accent for love handles.

STRETCH MARKS

Some women are really lucky - they get through pregnancy and birth and their skin just pings back into shape. The majority, however, will be left with stretch marks, and they can be confidence destroying.

Dermaroller Microneedling:

Dermaroller treatments use micro-medical skin-needling to roll away the imperfections and stimulate your own collagen to regenerate and repair your skin naturally.
